## Experience

|                                                                                                                                                                                                                                                                      |             |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| <b>Supreme Secondary Learner Government</b> , Vice President                                                                                                                                                                                                         | Maloco NHS  |
| <ul style="list-style-type: none"><li>Led the creation of the student council’s visual identity, including logo design and promotional assets.</li><li>Designed graphic materials for social media, tarpaulins, backdrops, flyers, and other publications.</li></ul> | 2023 – 2024 |
| <b>Hilltop (School Publication)</b> , School Paper Layout Artist                                                                                                                                                                                                     | Maloco NHS  |
| <ul style="list-style-type: none"><li>Designed 12-page tabloid school newspapers, which served as the school’s entry for the Division Schools Press Conference.</li><li>Collaborated with writers and editors to ensure visual design aligns with content.</li></ul> | 2023 – 2024 |
| <b>Philippine Startup Challenge 7 MATHuto</b> , Startup Co-founder                                                                                                                                                                                                   | 2022 – 2022 |
| <ul style="list-style-type: none"><li>Co-founded a startup that developed a mobile application to gamify math learning for Grade 1 students.</li><li>Contributed to branding, UI/UX design, and pitch presentations for the startup competition.</li></ul>           |             |

## Projects

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |             |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| <b>Aklish</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 2024 – 2025 |
| A web app for crowdsourcing Aklanon-English translations <ul style="list-style-type: none"><li>Built full <b>CRUD</b> functionality for translations using Django and React, enabling user-generated content.</li><li>Implemented a dictionary-based Aklanon <b>spellchecker</b>, improving translation accuracy.</li><li>Developed an Aklanon word <b>stemming</b> library enhance spell-check precision.</li><li>Conducted user testing with 30 native speakers and iteratively improved UX, resulting in increased usability.</li></ul>                                                                                              |             |
| <b>TagLID</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 2023 – 2024 |
| A word-level Language Identification (LID) tool for Tagalog-English (Taglish) text <ul style="list-style-type: none"><li>Utilized rule-based <b>Natural Language Processing</b> (NLP) techniques to identify the language of each word.</li><li>Created a <b>Python library</b> for Tagalog word stemming to improve Tagalog language detection for inflected words.</li><li><b>Scraped</b> from Tagalog and English dictionaries using BeautifulSoup4 to generate frequency-based lookup tables.</li><li>Computed code-switching frequency from 57 survey responses to automate data analysis for a language research study.</li></ul> |             |

## Skills

**Tools and Technologies:** Python, Django, JavaScript, TypeScript, React, Next.js, TailwindCSS, Git, Adobe Photoshop, Illustrator, InDesign

**Industry Knowledge:** Web development and design, Natural Language Processing, Data analysis

**Interpersonal Skills:** Problem-solving, Adaptability, Teamwork, Communication

**Languages:** English (Professional working proficiency), Tagalog (Professional working proficiency)
